

New Patient and Family Orientation

Receiving a cancer diagnosis can feel overwhelming for many individuals. Not knowing what to expect or where to gain answers can be common challenges during treatment. The patient and family orientation is available to provide information, support and address questions to help you better prepare for your cancer journey.

Facilitated by: Fran Cole

This orientation will cover:

- Overview of Hoag Family Cancer Institute
- Information on supportive services and programs available to you
- Ways to cope with a new diagnosis
- Resources and information on health care team and roles

Held the 3rd Wednesday of each month
